### **About the job**

**Job-ID:** 57952

**Location:** Lachen, CH

**Job Level:** Professionals

**Category:** IT

**Employment Type:** Permanent position

Do you want to combine the opportunities that a global company provides with the benefits of a family-owned business? Headquartered in Lachen near Zurich, Switzerland, the Octapharma Group is a leading company in the worldwide market for therapeutic human proteins. Working at Octapharma means to have an opportunity to contribute to our common goal – developing lifesaving therapies to improve patients' lives.

What's the best thing about working with us?

- You help save lives - Every day is meaningful as we produce life-saving medicines
- Family values - Long-term perspective for employees and relationships

- Be rewarded with an attractive salary and benefits package
- You will have a high level of influence where you can make a difference and leave your footprint
- Work with skilled and fun colleagues in a relatively informal organization
- Skills development - We offer various internal and external employee and leadership trainings, trainee programs and digital solutions

What will you be doing as BI Expert?

- You work independently on exciting BI implementation projects for various business departments.
- You contribute to the development of the new BI planning and reporting platform, based on the latest technology standards.
- You partner with other IT and business departments to deliver maximum value to the Octapharma business community.
- As an IT partner, you analyze the business requirements, provide professional recommendations and design robust and sustainable solutions that meet the business needs.
- You work in a network of experts with a high degree of personal responsibility and have the opportunity to be a leader within the BI field.

Who are you?

- Degree in Information Technology, or a comparable education with an IT background.
- Minimum 7-8 years of professional experience in a senior Business Intelligence role.
- Demonstrate initiative and a proactive approach to daily tasks.
- You are result oriented with strong analytical skills.
- Proficiency in SAP BW based Data Warehouse solutions, incl ABAP. Experience in Azure based Data Warehouse solutions, incl. SQL, Power BI, DAX are a bonus.
- You have practical experience collaborating with business stakeholders, such as Finance/Controlling, Supply Chain Management and Human Resources.
- Fluent in English is mandatory.

## The Information Technology Department

We are a trusted partner to the business. We create and deliver digital solutions for Octapharma. We operate in an international environment providing services to more than 12000 users globally. The IT organization employees approx. 240 people.

Apply Today!

Please apply in English. If you have questions about the position, contact Ms. Claudia Vignau, Recruiter; +41 55 451 21 35.

***"This is the perfect time to join the Business Intelligence team of Octapharma. The development of the BI technology roadmap gives many opportunities for exciting implementation projects and working with the latest BI technologies."***

***Christiaan Vocht - Team Lead BI Competence Center***

If you proceed in the process

- We will endeavor to review your profile as quickly as possible and provide you with feedback
- The next step is to conduct a phone interview, which takes about 30 minutes.
